Difference Between **GIT & GITHUB**

by Douglas Giarletti

@raask

in/hassanabdo

What is **GIT**?

Git is software for tracking changes in any set of files, usually used for coordinating work among programmers collaboratively developing source code during software development. Its goals include speed, data integrity, and support for distributed, non-linear workflows.

Create a Profile

The screenshot shows the Oraask website interface. At the top, there's a navigation bar with 'Home', 'Blog', and 'Knowledge Base' links. A search bar is also present. The user profile 'Hassan Abdelrahman' is displayed on the right, showing a 'Profile Strength' of 105% and a list of tasks to complete, such as 'Upload your avatar image' and 'Follow 3 users'. The main content area features a question titled 'Performance of CST_CG_COST_HISTORY_V view too much slow' by user 'moniz2u'. The question text describes a performance issue with a database view. The left sidebar contains links to 'Feed', 'Profile', 'Categories', 'Groups', 'Questions', 'Developers', and 'Wiki'.
